

Drywall Finisher & Painter – Job Description

Job Type: Full-Time
Pay: \$20.00 – \$27.00 per hour

Key Responsibilities:

- – Install drywall in remodel projects, including cutting, hanging, and fastening panels.
- – Finish drywall by taping, mudding, sanding, and texturing to achieve smooth, paint-ready surfaces.
- – Perform patch and repair work with seamless blending into existing finishes.
- – Prime and paint walls, ceilings, and trim using brush, roller, and spray methods.
- – Match textures and colors in renovation settings.
- – Mask and protect adjacent surfaces; maintain clean and organized workspaces.
- – Perform framing and other tasks as needed on jobsites to move projects forward.
- – Coordinate with other trades and crew members to meet project timelines.
- – Follow all company safety procedures and maintain a professional image on job sites.
- – Communicate clearly with supervisors and clients as needed.
- – Maintain a clean and organized work site, including proper material handling and debris removal.
- – Identify and resolve construction issues with minimal supervision using sound judgment and experience.
- – Set an example in professionalism, punctuality, and work ethic for the rest of the crew.
- – Represent the company positively with both customers and team members through clear communication and respectful interaction.

Qualifications:

- – Minimum 3–5 years of experience in drywall installation, finishing, and residential painting.
- – Skilled in both patch repairs and full wall/ceiling installations.
- – Ability to execute Level 4 and Level 5 finishes preferred.
- – Experience in occupied homes with focus on cleanliness and customer care.
- – Familiar with hand tools, power tools, and spray equipment.
- – Strong work ethic, attention to detail, and ability to work independently.
- – Valid driver's license and reliable transportation to job sites.
- – Ability to lift, bend, climb ladders, and work in various conditions.
